I am a dedicated and passionate Software Engineer with 2 years of experience in software development. My expertise spans across front-end, back-end, and full-stack development, as well as mobile app development. I have a proven track record of delivering high-quality results and continuously improving my skills and knowledge.

Experience

●

Freelance Software Developer

2022 - 2024

- Completed over 20 freelance projects, delivering robust and scalable software solutions for clients across various industries, including e-commerce, healthcare, and finance.
- Developed and maintained full-stack web applications, leveraging technologies such as React, Node.js, MongoDB (MERN stack), Spring Boot, and .NET, resulting in increased client satisfaction and repeat business.
- Designed and deployed mobile applications for Android platforms, utilizing React Native, which enhanced user engagement and expanded client reach.

●

INTERNSHIP | Axiata Digital Labs

2022 - 2023

- Collaborated with a cross-functional team of developers, designers, and product managers to design and implement new features for a large-scale web application, utilizing HTML, CSS, JavaScript, and Python.
- Assisted in the development and maintenance of back-end services and APIs, ensuring efficient data processing and seamless integration with front-end components.
- Participated in code reviews and contributed to improving code quality and performance by adhering to best practices and implementing optimizations.
- Conducted thorough testing and debugging of software applications, identifying and resolving issues to enhance overall system reliability and user experience.
- Gained hands-on experience with version control systems (Git) and agile development methodologies, contributing to sprint planning, daily stand-ups, and retrospective meetings.

●

Academic Projects Experience

2020 - 2024

Education

●

Advance Level - Biological Science

2016 - 2018

●

University of Moratuwa

2020 - 2024

- BSC(Hons) in Information Technology

Skills

Front- End Skills - HTML5, CSS3, React, Angular, Next Js, Tailwind CSS, React Native, Typescript , SASS

Back- End Skills - Javascript, Node, Express Js, Python, Django Java, Springboot, C#, Asp.Net, PHP

Database - SQL, Oracle, MongoDB

Software Development Principles
